PROJECTS

AI Based Smart Allocation Engine for PM Internship Scheme Hackathon:
We are developing a dedicated portal for the PM Internship Scheme to eliminate clickbait and fraud. Our platform ensures every single opportunity is verified, authentic, and completely free for students. No hidden fees, just genuine career-building experiences.

Heath Insurance Data Analytics Projects:
This project aims to leverage the power of data analytics to improve operational efficiency, reduce costs and enhance member satisfaction within the health insurance industry.

ACHIVEMENTS

- Participate in university- level hackathon 2025
- Hackbhoomi hackathon
- Apna College

STRENTHS

- Quick learner and team player
- Strong analytical and debugging skills
- Excellent communication and adaptability

HOBBIES

- Competitive coding on HackerRank
- Reading tech blogs and exploring AI tools
